About the Evil Eye

The fear of the evil eye has been ongoing since prehistoric times. It represents the fear of those destructive energies that arise from negative emotions, like jealousy, hatred and envy. Desire for protection against these negative

emotions is a universal impulse and for thousands of years the people of many ancient cultures and religions resorted to unimaginable procedures and sacred symbols to protect them and stop them

becoming a target for these evil forces. Evil eye bracelet is a special kind of jewelry. It helps ward off all evil eyes and creates a protective shield to defend your health and fortune.
