The Messages from the Universe

Deck of 54 cards

I follow my intuition. I don't have to struggle, not even in my mind, to improve this situation and to achieve my goals. I listen to the guidance of my Higher Self and the good I desire is near and within reach.

Every time a door closes, another one opens up toward wider and more beautiful horizons. The space naturally created in my life now brings me even greater possibilities for growth. I welcome any change in my life with confidence and joy.

These beautifully designed cards offer a way to focus our mind in order to get inspiration and guidance from within at any moment in life.
