The Original Blessed Herbal Candles

We tapped into the ancient mystical secrets of herbal magic, and by all of our customer's accounts, IT WORKS!

Making magical herbal candles is something we take very seriously. Starting with purposeful recipes and high-quality materials, we add in the magic of personal blessings while hand pouring them during the phase of the moon that will intensify their energy. The 18 styles available address any need one may encounter in their travels through life. We have been making this line of candles since 1992, keeping time with the phases of the moon

and watching the magic of Coventry grow with each batch of candles.

Returning time and again, our customers tell us that each candle is a unique experience that uplifts and enriches their lives.

Quality Ingredients

Coventry candles are made with high quality ingredients that are standard to the candle manufacturing industry. Each ingredient is chosen for its quality and effectiveness in manufacturing and consumption.

Wax: We use a food grade paraffin wax that has the lowest crude content for its melting point. We chose this wax for its consistency in mottling, reaction to fragrance and burn quality. We chose paraffin for our wax due to price point, ease in handling and environmental concerns. Paraffin is a by-product of the oil industry that if not used in various products would end up in the environment. We have researched studies by the FDA, EPA and other independent sources and have found there is little discernable difference in the environmental impact of paraffin compared to other waxes.

Wicks:We use wax coated cotton wicks in all of our candles. The votives have a zinc core center, which has not shown any adverse health concerns.

Scent: Our candles are scented with a combination of cosmetic grade fragrance oils and medicinal grade essential oils. Even our fragrance oils are manufactured with a high percentage of essential oils. We use this combination to create a candle that has a generous scent on the shelf and when lit, without being overpowering. Some of our customers tell us that Coventry Candles are the only candles that don't cause an allergic reaction in them.

Goddess & Myth

Myth & Magic...

...experience the Myth, become the Magic

Who knew these candles would work so well!

Originally designed to honor the archetypes of myth within us all, we discovered that these essences are alive and well, and actively magical to boot. They must have liked our recipes because they make magic happen beyond our wildest expectations!

The Myth & Magic candles were years in the making. Our company library is filled with books on myth, history and fantasy. The funny thing is, we used very little of what has already been written.

Angel - Miracles	Gargoyle - Protection
Dragon - Power	Genie - Wishes
Fairy - Inspiration	Phoenix - Strength

Invoking the Goddess

3" x 3.5" 40-hour pillars

There is a goddess to call on for every intention. Invoking the Goddess candles are perfect for your personal altars, or just to call upon the blessings and gifts each goddess brings.

We did our homework to create a candle with the appropriate color and scent fit for a goddess. Invoke your patroness to receive her special earthly rewards.

Hand Dipped to order, these 1 hour incense sticks have exceeded our expectations! They are made in Coventry's magical tradition, each blend and single scent of incense is blessed for its unique intent and made in accordance with the lunar cycles.

The use of incense in spiritual practices dates back to pre-herstory and is another medium, like candles, that can be used to communicate the essence of magic.
