The Spirit of Water
WATER BLESSING LABELS

Prayerful intention not only transforms experience, but also transforms cells and generates the energy to heal, detoxify or eliminate suffering. The Spirit of Water believes that praying or blessing the water we touch or use in our daily lives is an important way to carry those messages into our cellular universe as well as our physical reality. They have prepared several collections of Water Blessing Labels, that serve as tools for personal transformation each time they are applied to drinking water. These labels and their thoughts can transform the water you give your plants, your pets, the water you bathe in, and the water that passes through the office water cooler.

Each package includes 16 reusable, static cling blessing labels. These labels are designed to influence drinking water with thoughts as based on the 5-year study by Dr. Emoto featured in the movie "WHAT THE BLEEP...DO WE KNOW". If words, thoughts and images can change water imagine, how can they transform your body, which is 85% water?

Each label includes 2 Bonus Gifts – 16 Cut-Out Blessing Cards and a 27 page E-book available for download.
