The Witch Compass

Working with the Winds in Traditional Witchcraft

IAN CHAMBERS

Join Traditional Witch Ian Chambers on an exploration of the Witch Compass, an important ritual tool at the heart of Traditional Witchcraft practice. This book takes you through the origins, history, and uses of the compass and other magical circles, comparing their many forms and how they work.

Chambers demonstrates how the compass is more than a tool—it is also a framework through which you can enhance spiritual and magical activities such as journeying to the otherworld and beyond. Develop your own Witch Compass and discover all its practical uses. This book shows you how to see the world through the compass as well as how to use it for divination, connecting with spirits, and working powerful magic.

The Leo Personality

Strengths, Talents, and the Creative Spark

Your Sun sign has an affinity for royalty and favors purple tones, magentas, and rich blues in your color scheme. Your personality sparkles with drama and daring while you bring good vibrations to your family, friends, and associates. The Sun rules your sign and the fifth house of adventure, fun, games, social life, children, lovers, dating experiences, freelancing, sports, exercise, romantic interludes, speculation, risk-taking, and entrepreneurial enterprises. You have a flair for individualism, and what you express complements your magnetic personality in displaying the qualities most affiliated with Leo. Those attributes include a can-do attitude, pride of accomplishment, entertaining and socializing skills, cherishing your love interests, leadership, loyalty, recreational pursuits, and a fascination with the big picture. Many of you present a dramatic picture to the world, wearing expensive, fashionable clothing, plus elegant hair and jewelry that makes a statement to complete your look.

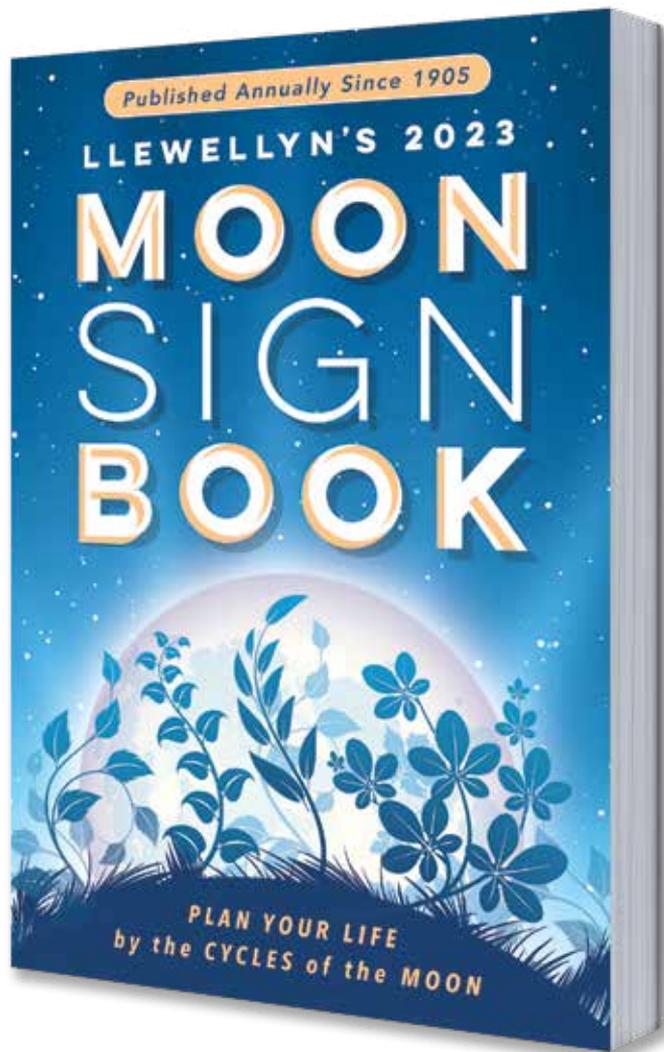

The planets you have in your fifth house describe the range of emotions and the diverse creative and recreational activities that interest you. Many Leos are hard-core sports fans and may be either an active participant or a spectator. For others, the world of entertainment and showmanship drives your passion. You are a creature of habit—if you dance, it is a hot pursuit. Yours is the second fixed sign and the second fire sign of the zodiac. Your magnanimous spirit attracts others who are impressed by your enthusiasm. Leos come in two distinct personality styles: exuberant Lions who want their share of the limelight and the more reserved yet equally powerful Cats who bask in glory in a more subtle way. If a parent, you are supportive and enthusiastic about your children's interests and enjoy sharing their accomplishments with others.

Intimacy and Personal Relationships

Finding the right partner is worth every bit of the effort you expend in your search. Once you find "the one," you bubble over with enthusiasm to tell your family and friends you're in love. Every moment spent with the object of your affection prompts you to care more about your partner and look for ways to say "I love you." Romantic gestures are your specialty: passionate love notes, intimate candlelit dinners, getaway weekends, and movie dates to see romantic films. Leos typically get

Growing Marjoram

As a family, oreganos are a hardy bunch of perennials, but not sweet marjoram. In most areas of the world, it is treated as an annual and can be quite picky about its growing conditions. To grow your own, I suggest starting seeds in a pot or seed tray before planting them in the ground since the seeds are quite small. Give marjoram sandy soil that drains quickly. Spread the seeds over the top of the soil and cover them with a light sprinkling of more soil or vermiculite. Water regularly though sparingly as the seeds come up, which can take between five days and a month, depending on the temperature of the soil—the warmer the better.

The seedlings are susceptible to rot in their first weeks, so don't get too attached just yet. Pull out any that look like they aren't going to make it. Once the plants have a few true leaves, you can move them to their permanent spots. If that is in the ground, make sure it is well past the last frost of spring.

When I first tried to grow marjoram from seed, I planted wild thyme at the same time in an identical pot. I forgot to mark them and after waiting ages for the seeds to sprout, I could no longer remember which seeds were in which pot. A week or so later, it suddenly became easy to tell the difference—my marjoram sprouts were the dead ones! That wild thyme, however, was the happiest plant I have ever grown.

Once established, marjoram is a pretty plant that loves the sun. Snipping its stems encourages new growth, so use its leaves in food, tea, bouquets—everything!

Brigid is often referred to as a "Celtic goddess" but it's more honest to say that she was an "Irish-Celtic goddess." Just how far her worship extended over Ireland and the rest of the British Isles is an open question. There are some scholars that believe Brigid's worship was limited to the area around Ireland's County Kildare while others believe her worship was more far flung. The Romano-British goddess Brigantia is believed by some to be a version of Ireland's Brigid (Hutton 1996, 135). That doesn't quite make Brigid a universal Celtic deity, but it does extend her reach a long way.

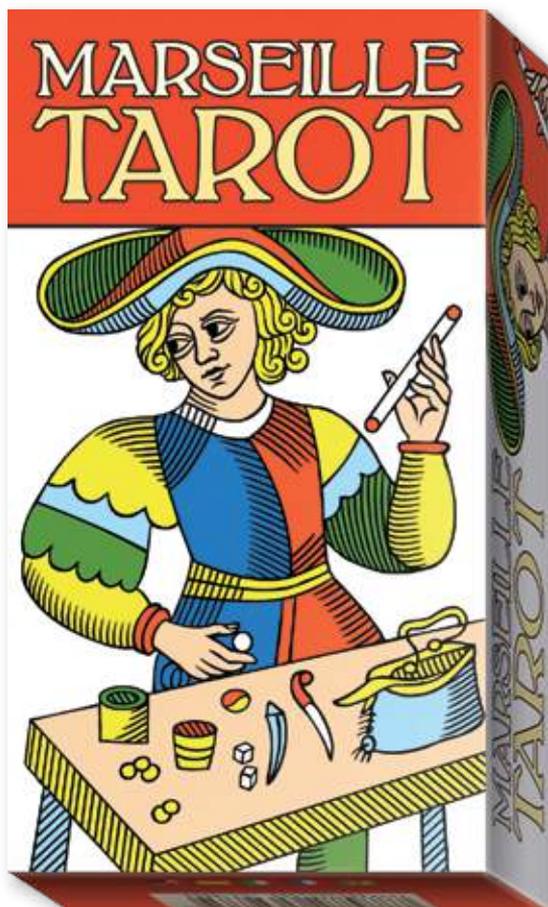

Among the Irish-Celts, Brigid was a goddess of learning, prophecy, poetry, healing, and metalwork. Her association with metalwork and the forge, along with her name, might also indicate that she was a fire goddess. Brigid actually translates as "fiery arrow," again linking her to fire and also perhaps to war (Hutton 1996, 135). This makes her similar to the Greek goddess Athena (Roman Minerva) who ruled over a similar set of attributes. In Irish mythology, Brigid is the daughter of the Dagda, one of the kings of the Tuatha Dé Danann, the gods of Celtic Ireland.

The myths involving the Catholic Saint Brigid are extremely varied. In some versions, she acts as a wet-nurse to the baby Jesus, and in other tales Brigid is a reformed Druidess who converted to Christianity and became a nun. Complicating things even further is a medieval Irish manuscript that lists over twenty-five different Brigid's in Irish history (Hutton, 1993, 153)! It's possible that one of these twenty-five different Brigid's was an actual flesh and blood human being, but that real person was absorbed by the goddess Brigid. The idea that many Christian saints are transformed versions of ancient Pagan deities is often overstated, but in the case of Brigid, it is undoubtedly true.

Much of what we know about the goddess Brigid is directly related to what we know about the Christian saint of the same name, and the mythology and worship of the two figures is very much intertwined. Kildare Abbey is home to a sacred flame in honor of Saint Brigid, but it's likely the fire kept at the abbey dates back to
