We publish nonfiction and fiction books, e-books, and audio books on topics that include spirituality and metaphysics, inspirational, religious, personal journeys and memoirs, new thought, natural/alternative health and healing, self-care, and wisdom learned from lived experiences that are helpful to the world.

Our popular book series **Common Sentience** is authored by some of the most well-known and loved spiritual teachers of today and demonstrates our collective consciousness and oneness of experience.

Our Imprints

Sacred Stories Publishing is our flagship imprint that started it all in 2016 and has quickly gained footing as one of the most respected imprints in the inspirational and higher consciousness genres. It was founded on our firm belief in the power of story to connect us, inspire one another, and inform our choices.

Haniel Press illuminates the Divine teachings and wisdom imparted through our lived experiences—not as lessons learned, but as awareness gained. Taking inspiration from the Angel of Joy, this imprint supports our readers in “moving through the story” into the wisdom acquired through it, and consciously delighting in life's inherent sacredness.

Light on Light Press is an imprint dedicated to interspirituality—the sacred ground upon which all religious and wisdom traditions intersect. Light on Light Press publishes the contemporary works of both sacred and secular thought leaders whose messages perpetuate an engaged spirituality that fully embodies our beliefs, respects our differences, and inspires compassionate action.

COMMON SENTIENCE BOOK SERIES

COMMON SENTIENCE

The mystical goes mainstream! This first-of-its-kind book series is proving that our direct, personal, spiritual experiences are an increasingly common and meaningful part of our human lives. Each book in our Common Sentience series spotlights specific ways that these profound connections are made—through nature, angels, sound, spirit guides, animals, meditation, ancestors, shamanism, mediumship, the akasha, and more.

Rewilding

A Woman's Quest to Remember Her Roots, Rekindle Her Instincts, and Reclaim Her Sovereignty

Kristy M. Vanacore, Psy.D

Description

2023 Winner! Silver Nautilus Book Award!

Rewilding is Dr. Kristy Vanacore's heroine's journey into darkness and light. An intimately personal and intensely relatable story of a suburban hockey mom, wife, and clinical psychologist, who despite appearing to have it all, was slowly, achingly dying from her own pathologies. Mentally brainwashed, physically broken, emotionally numb, and spiritually asleep, Kristy was simultaneously overwhelmed and underwhelmed; a caged horse shackled by fear, siphoned of life force, verging on extinction.

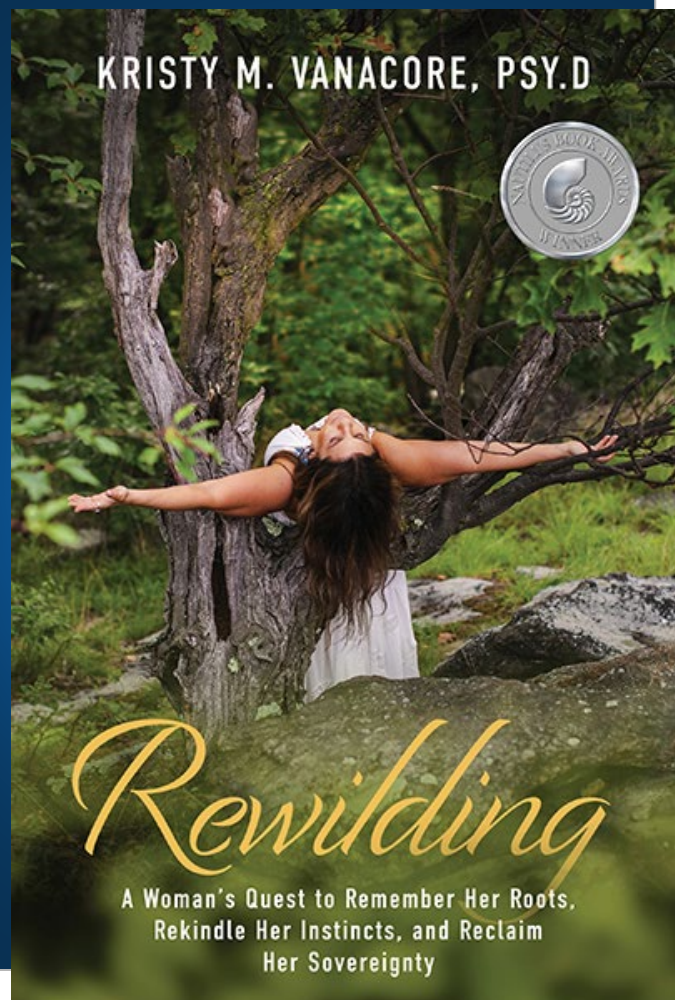

Kristy invites you into her raw and honest account of metamorphosing from near death and disassociation to resolving complex trauma, awakening to purpose, reclaiming her truth, and reveling in the sovereignty of her spirit.

She shares her *Rewilding* journey—an emancipation from the domestication and conditioning of tolerance, distraction, and fear to the empowered freedom of inherent curiosity, passion, instinctual wisdom, and joy. Her story inspires others to do the same.

Janis Harper is a former adjunct English professor turned expressive arts therapist, as well as a writer, singer-songwriter, and actor. Her lifelong passions for the arts, metaphysics, spirituality, and philosophy come together in *Jonas and the Mountain*.

Jonas and the Mountain

A Metaphysical Love Story

Janis Harper

Description

We are always seeking ourselves.

An eastern mystic, a western psychic, and a broken man who falls in love with them both at a holy, magnetic mountain. More than an unusual love story, *Jonas and the Mountain* is a quest for the deepest truth, an excursion into the nature of reality.

Jonas has been living a half-life since he lost his marriage, his college teaching position, and his best friend all at once. In his darkest moment, he hears a voice in his head, and strange poems start to come to him. Curious and open to exploration, he joins a friend who is traveling to Mt. Arunachala in South India. There Jonas meets the guru D, who shows him a direct path to enlightenment, and Anamika, an oddly familiar woman who explains the voice and poems and reveals yet another reality of multiple dimensions and partner selves. Jonas seeks to reconcile D's and Anamika's philosophies to find what is true with a capital "T," as he struggles to resolve the pain in his past and the surprising ways it appears in his present.

This is a journey into the heart of it all.

Praise

An enchanting odyssey into longing and love-for one's beloved teacher, one's soul mate, and ultimately, one's Self. Accompany Jonas as he climbs his spiritual summit and inspires you to do the same. --**Gina Mazza**, author of *Everything Matters, Nothing Matters*

Jonas and the Mountain is a deeply reassuring book. In clear, often crystalline prose, Janis Harper chronicles the lives of both seeker and guru. As a character observes, "When the student is ready, the teacher appears." If you are ready, this is the novel for you. --**Grant Buday**, author of *Orphans of Empire*

Three Men Six Lives

Bernie Siegel, MD

Description

Dr. Bernie Siegel broke new ground with his monumental book *Love, Medicine and Miracles*. Today Bernie continues to impart wisdom about the true nature of life and love in his entertaining and enlightening debut fiction novel *Three Men, Six Lives*.

When three conflicted men search for deeper meaning in their lives, through their sometimes painful and amusing explorations they discover there are no coincidences:

- Jon Hokmah, an empathetic psychotherapist who comes to accept the fact that he became a therapist because of his own problems.
- George Dingfelder, a stressed-out Jewish physician with a name longer than his lean body, a nervous smile, photographic memory, and a tendency to talk too much and fantasize even more.
- Carmine Birsamatto, an Italian crime boss who doesn't deny he's a racketeer but makes it clear he's not a thug. With charming manners and a soft spot for his grandchildren, he feels a deep conflict over the nature of his business.

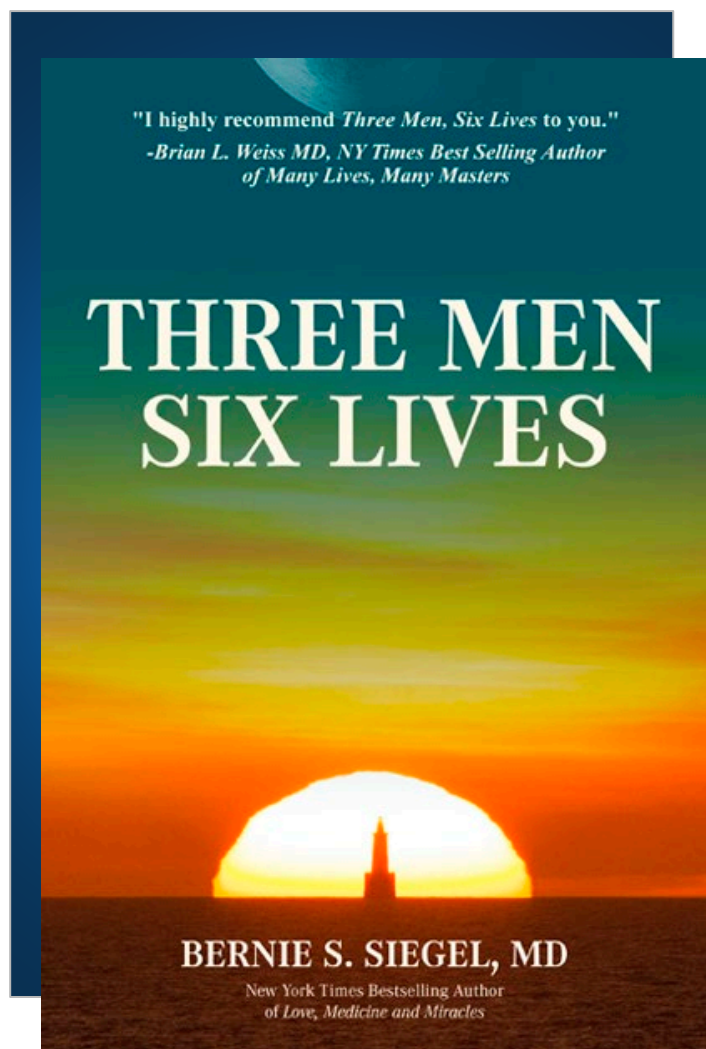

Join this unlikely trio as they learn that love not only heals, but it endures. Sometimes the paths in life that look like detours are just different ways to get to where we are meant to be all along.

Praise

Timeless wisdom flows from the mouths of Bernie's characters in this important and entertaining book. Concepts of spiritual psychotherapy, past lives, and the fearless courage born of unconditional love and awakened consciousness are carefully explored. The Way of Inanna

A Heroine's Guide to Living Unapologetically

Seana Zelazo

Description

Myth Made Manifest

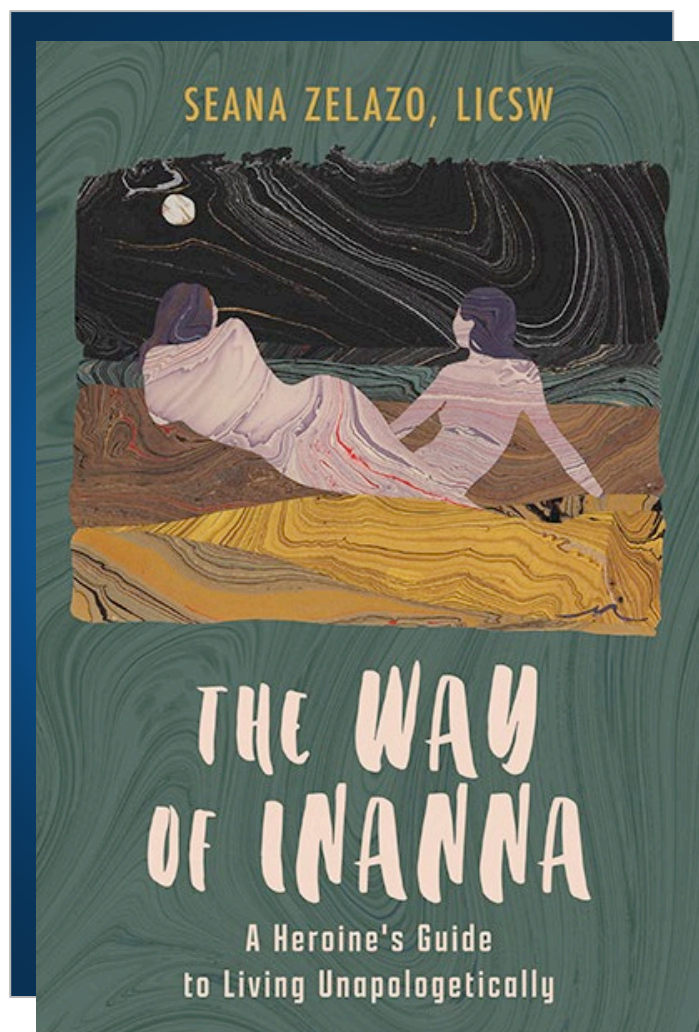

Over 4000 years ago in ancient Sumer, some of the first mythographers inscribed the stories and myths of the Goddess Inanna on clay tablets in cuneiform. These incredible findings were unearthed, and the fragments were painstakingly pieced together and translated.

What they discovered were the ways Inanna was heralded as a goddess who embodies polarities: impatient and deliberate, an attentive lover and fierce warrior, connected to fertility as well as death-making her an accessible, relatable, and inspiring representation of the Divine Feminine as she stands in her power and multidimensionality. The Way of Inanna is a field guide to heart-centered living through the wisdom of the Sumerian Goddess of Love.

Each chapter deconstructs sacred narratives in which the Goddess navigates the seven gates of her soul's journey from awakening to ascension. More than a simple retelling, the book is myth made manifest in which Inanna becomes a means to accessing our own ascension and alchemical magic within our modern, contemporary context.

Praise

The Way of Inanna is a wonderful summation of the myths of Inanna and a how-to guidebook for living her mysteries. As Zelazo weaves these myths she illuminates the way forward for all of us. -**William Henry**, ascension scholar, art historian, and author

The Other Goddess

Mary Magdalene and the Goddesses of Eros and Secret Knowledge

Dr. Joanna Kujawa

Description

Is there a lineage of goddesses that claims the evolutionary power of female sexuality? And if so, why were they pushed to the shadows and demeaned as harlots? Was Mary Magdalene one of them, and what were her teachings?

Dr. Joanna Kujawa argues that in the process of recovering the healing power of the Goddess we have focused solely on the mother archetype and left out the other Goddess, who is often represented in mythical, historical, and Gnostic sources as wise, mysterious, and in the possession of the healing power of Eros.

Learn about Mary Magdalene's portrayal in the gnostic gospels as a teacher in her own right and Jesus' intimate partner, the possibility of her life as an alchemist in Egypt, and her last years in Southern France. Find out if Mary Magdalene was the same person as Mary the Prophetess of Egypt and her connection to the mysterious Cathars, Black Madonnas, and Knights Templar.

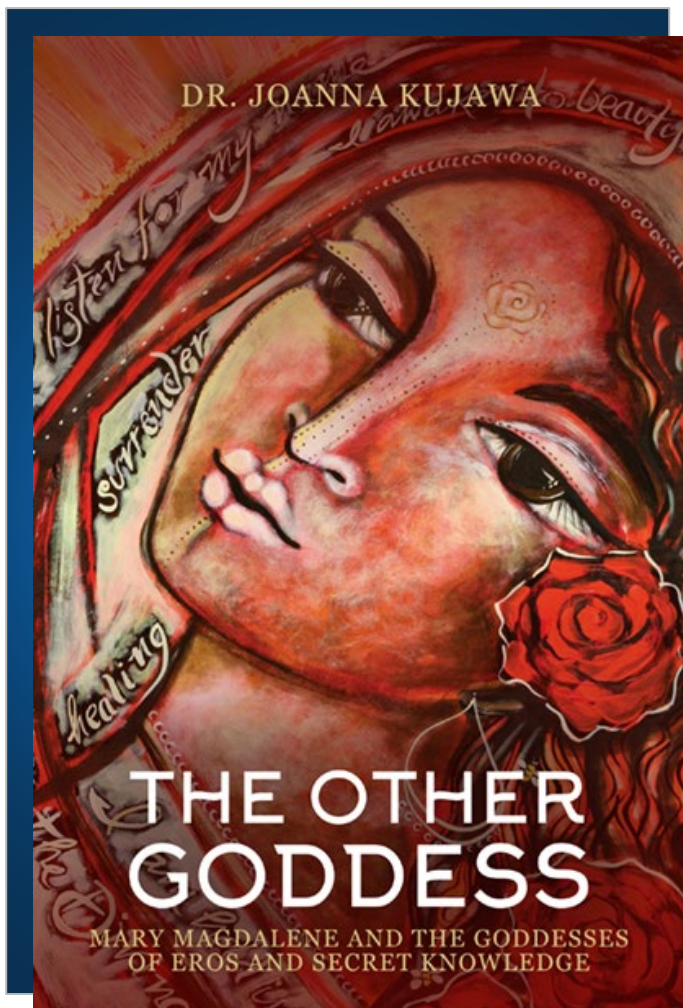

Whether looking at Mary Magdalene, Sophia, Aphrodite, Inanna, Hathor, Isis, or the goddesses of esoteric Hinduism, Dr. Kujawa finds the archetype of The Other Goddess-the bearer of the mysteries of sexual alchemy that ends the division between sexuality and spirituality.

Praise

Dr. Kujawa presents a very compelling, intelligent, well-researched account of goddesses and goddess energy that rises far above any typical discussion on the subject. Her work fundamentally transforms knowledge about who we are and who we might become if we open our eyes, our minds, and our hearts. This is essential reading for anyone interested in new femininity and masculinity, exploring ancient archetypes, and deepening spiritual development.

-Zeus Yiamouyiannis, Ph.D., author, *The Spiritually Confident Man: Pioneering a New Frontier of Co-Creative Masculinity*

Dr Joanna Kujawa is an author, scholar and spiritual detective. She received her BA and MA from the Pontifical Institute for Medieval Studies at the University of Toronto, Canada, and her PhD from Monash University, Melbourne, Australia. As an active academic for over 20 years, she uses her scholarly training to investigate topics other academics often pass over. She is on the editorial board of the International Journal of Goddess Studies.

Joni Dittrich, Ph.D. (Rajashree Maa) is a master of four reiki lineages and a venerated interspiritual teacher of meditation, yogic wisdom and holistic wellness. From many years of practice as a psychologist and healer, she sees true healing as a gateway to spiritual wisening and awareness of the Limitless Love at the heart of being. She is the founder of The Wisdom School based in Napa, California, which is dedicated to offering online and in-person healing sessions and training in Kali-Ki Reiki and supportive practices.

May the Loveforce Be With You

Kali-Ki Reiki: Healing Through Divine Mother & Yogic Wisdom

Rajashree Maa**Description**

May the Loveforce Be With introduces a new lineage in energy healing, Kali-Ki Reiki™, that was revealed to the author, Joni Dittrich, Ph.D. (Rajashree Maa), in a series of mystical encounters with the Divine Mother appearing as the goddess Kali Maa. The book brilliantly tells the stories of these encounters and presents the healing symbols that She revealed, explaining how these symbols can be used both for mind-body healing and spiritual awakening, or what Rajashree Maa calls "wisening."

While traditional reiki systems also use symbols to transmit healing energy, the symbols introduced in Kali-Ki Reiki are seen as unique, three-dimensional, active, intelligent forms of light that tap into certain universal energy frequencies that are particularly attuned to the evolving conscious awareness as well as the personal and societal dilemmas of our current times. The fact that these symbols were revealed by Divine Mother to a woman in this era points to a need in today's world to re-establish our connection with the feminine forces of nature and spirit. The healing energy transmitted through these symbols is called Loveforce, which is considered to be the manifesting, creative, and healing power of the Limitless Love that is the Source of all that is.

Praise

A powerful book on the science of spiritual transmission. It can be read again and again, each time to reveal something new.

Science, Being, & Becoming

The Spiritual Lives of Scientists

Paul J. Mills, Ph.D.

Description

2023 Winner! Gold Nautilus Book Award!

Spirituality is the Final Frontier for Science

Contrary to popular belief, not all scientists are materialists fervently discounting the spiritual. *Science, Being, & Becoming* is about the spiritual lives of scientists, their actual transpersonal, metaphysical and mystical experiences. The book's material is derived from intimate interviews with over 30 scientists as they describe the circumstances under which they had the experiences and how those experiences changed their consciousness, transformed their belief systems about the nature of the world, and changed their scientific work.

Praise

Science, Being, & Becoming dismantles the fallacy that scientific investigation and spiritual exploration are at odds, instead illuminating them as two sides of the same coin. I am moved by the insights and the courage of Professor Mills and those academics and scientists who have shared their experiences and revelations, which beautifully express that what we are on the inside - mind - and the ultimate reality of the universe on the outside - matter - are one.

- **Rupert Spira**, author, *The Nature of Consciousness: Essays on the Unity of Mind and Matter*

The artificial barrier between the realm of science and the realm of spirit is long overdue for demolition. Paul Mills, who treads easily in both domains, makes a major contribution by shifting the focus from belief, assumption, and dogma to the more revealing, and scientifically fruitful, area of direct experience. - **Philip Goldberg**, author, *American Veda: From Emerson and the Beatles to Yoga and Meditation, How Indian Spirituality Changed the West*

Ken Wilber, founder *The Integral Vision*

In her call for global unitive healing, Dr. Mustakova points to the need for a new “organizing paradigm that helps us understand and navigate global change and restructuring.” That may be what will manifest the “Golden Age of Humanity” she invokes.

Global Unitive Healing is a hymn to our collective sanity... With wise medicine for our time, Mustakova... lays out the great universal and unifying spiritual principles which illuminate individual and global transformation.
